Martin Eriksson focuses his practice on construction and consultant law and on dispute resolution. Martin's experience within these areas includes drafting and reviewing contracts, ongoing project consulting, as well as providing legal advice in disputes.

Experience:

- Advisor and representative in construction disputes, including counsel for a client in court proceedings against the contractor regarding works performed in a combined heat and power plant
- Advisor to clients in both the private and public sector, in connection to the procurement of construction contracts (including drafting and reviewing construction contracts and administrative instructions)

- Advisor to real estate companies and housing developers during ongoing construction projects
- Advisor to employers in the development of legal contract templates for small and large construction projects

- Advisor and representative to real estate companies and housing developers during ongoing construction projects
- Advisor and representative to clients in construction projects where the contractor is declared bankrupt or
